- Advanced presentation and public speaking skills
- Executive coaching

My message and vision

Less is more. Most of our limitations are created by ourselves when we spend our time, energy and money to make simple problems much more complicated. Set your priorities, sharpen your focus and do the most important thing very well. When it is done, move on to the next. I know it is easier said than done, but we can always turn to nature, music, sports and many more for inspiration.
